Abdulsalam Barghouthi

SOFTWARE DEVELOPER

Amman, Jordan / Ramallah, Palestine | +970594429004 / +962776471138 | abd2k4@outlook.com

Objective

Detail-oriented software developer with over two years of experience in building web applications using Grails and Spring Boot. Skilled in creating scalable, maintainable solutions with a focus on clean code and efficient design. Strong collaborator with cross-functional teams to deliver high-quality software products

Experience

Unique Business Solutions | Software developer   **June 2022 - Present**

- Developed and maintained web applications using Spring Boot and Grails, optimizing development processes with convention-over-configuration principles.
- Implemented RESTful APIs, integrated third-party services, and managed data persistence with GORM.
- Collaborated with cross-functional teams to gather requirements, design solutions, and ensure application scalability.
- Conducted unit and integration testing to uphold code quality and meet project requirements.
- Managed Linux servers, ensuring high availability and performance of critical applications.
- Utilized SonarQube to perform code quality assessments and integrated it into CI/CD pipelines, resulting in improved code maintainability and reliability.
- Conducted security scans and vulnerability assessments, implementing fixes to enhance application security posture and compliance.

Unique Business Solutions | Software developer Intern   **June 2021 – November 2021**

- Developed efficient and maintainable web applications using Spring Boot, actively participating in Agile processes such as daily stand-ups, sprint planning, and retrospectives. Contributed to optimizing database schema design for enhanced application performance and collaborated with front-end developers to integrate user interfaces with server-side logic

Education

AL Balqa' Applied University | BS Computer Information System (CIS)   **2018 - 2022**

Earned a 3.2 GPA and completed relevant coursework in web development, database management, and software engineering.

Communication

- **Effective Team Collaboration:** Collaborate seamlessly with cross-functional teams to gather requirements, design solutions, and deliver projects on schedule.
- **Clear Communication:** Articulate technical concepts to both technical and non-technical stakeholders, ensuring understanding and alignment of project goals.

Leadership

Mentor junior developers, conduct productive code reviews, and maintain coding standards to foster teamwork and continuous improvement.

Skills & abilities

- **Programming:** Java, Groovy.
- **Web Development:** Grails (2.x, 3.x, 5.x), Spring Boot, Spring MVC.
- **DevOps:** Linux (Ubuntu, CentOS, Red hat).
- **Code Quality and Security:** SonarQube.
- **Databases:** MySQL, Oracle.
- **RESTful APIs:** Grails, Spring.
- **Version Control:** Git.
- **Deployment & Hosting:** Apache Tomcat, Apache HTTP Server.
- **Security Practices:** Encryption, authentication, authorization.
- **Problem Solving:** Analytical, scalable solutions.
- **Documentation:** Proficient in writing Software Requirements Specifications (SRS) for agile development teams, ensuring clear communication of project requirements and goals.
- **Team Collaboration:** Cross-functional teamwork.
